KAVA

Kava is a tropical plant native to the South Pacific, known for its calming and sedative effects. Traditionally consumed as a beverage made from its roots, kava is often used to promote relaxation, reduce anxiety, and improve sleep quality. Used as a natural remedy for anxiety and stress.

HEMP

Hemp is a versatile plant from the Cannabis sativa species, known for its low THC content and rich CBD levels, making it non-psychoactive.

KANNA

Kanna, also known as Sceletium tortuosum, is a succulent plant native to South Africa, traditionally used for its mood-enhancing properties. It is known to reduce anxiety, alleviate stress, and promote a sense of well-being. Kanna contains alkaloids that interact with the brain's serotonin system, making it an increasingly popular natural supplement for improving mood and mental clarity.

KRATOM

Kratom is a tropical tree native to Southeast Asia, particularly Indonesia, Malaysia, and Thailand, that has been used for centuries for their medicinal properties, compounds that can provide stimulant effects at low doses and sedative effects at higher doses, making it popular for managing pain, boosting energy, and alleviating anxiety.
